Patricia Crawford explores how the study of gender can enhance our understanding of religious history, in this study of women and their apprehensions of God in early modern England. The book has three broad themes: the role of women in the religious upheaval in the period from the Reformation to the Restoration; the significance of religion to contemporary women, focusing on the range of practices and beliefs; and the role of gender in the period. The author argues that religion in the early modern period cannot be understood without a perception of the gendered nature of its beliefs, institutions and language. Contemporary religious ideology reinforced women's inferior position, but, as the author shows, it was possible for some women to transcend these beliefs and profoundly influence history. Law can be seen to consist not only of rules and decisions, but also of a framework of institutions providing a structure that forms the conditions of its workable existence and acceptance. In this book Olsen and Toddington conduct a philosophical exploration and critique of these conditions: what they are and how they shape our understanding of what constitutes a legal system and the role of justice within it. 'Simmonds is a copper-bottomed genius... she is as brilliant a writer as Britain has' Jenny Colgan, Mail Online
Cassandra Darke is an art dealer, mean, selfish, solitary by nature, living in Chelsea in a house worth £7 million. She has become a social pariah, but doesn't much care. Between one Christmas and the next, she has sullied the reputation of a West End gallery and has acquired a conviction for fraud, a suspended sentence and a bank balance drained by lawsuits. On the scale of villainy, fraud seems to Cassandra a rather paltry offence - her own crime involving 'no violence, no weapon, no dead body'. But in Cassandra's basement, her young ex-lodger, Nicki, has left a surprise, something which implies at least violence and probably a body . . . Something which forces Cassandra out of her rich enclave and onto the streets. Not those local streets paved with gold and lit with festive glitter, but grimmer, darker places, where she must make the choice between self-sacrifice and running for her life.

In his hymns and poems, Charles Wesley takes all who sing and read on an inward journey, asking soul-searching questions which are as up-to-date now as they were in the eighteenth century. They reflect his quest for identity as a human being, clergyman, and follower of Jesus Christ. His questions about God, Jesus, faith, others, self, the world, and daily living are still today's questions. This book is not an exhaustive study of such questions in the context of Wesleyan history, theology, or hymnody. It is an attempt to look afresh at questions we are asking to which Charles Wesley often responded in familiar and unfamiliar hymns and poems.
