The Passionate Mom Nov 17 2021 It is a different world and we need a different
kind of mom that is ready to take on that world. What exactly is the job
description of a mom? How can the job be accomplished in a culture of entitled
privilege and uncensored technology? Who is doing it right? Every mother desires
to do her job well. But how? Passion. The plan begins with the one thing every
mother possesses - passion. In the heart of every mother is the passionate desire
to protect and provide her child with a promising future. We must capture that passion
and build on it. To do so she must perceptively study our children, ponder what we
perceive, pray believing there is hope, prepare for opportunities, plan patiently,
overcome persecution, and persevere at all times. These are the building bricks for
parenting with passion. Dare. There was someone who so passionately loved his
people that he boldly dared to build a wall to protect them and to provide a future
for them. The prophet Nehemiah saved their lives, and his story has purpose for our
lives. Moms must dare to do the same for their children. Save their lives by
following his lead and his passionate plan. It is pertinent to build a plan that will
save this generation of children. To do so, that requires deep prayer, discipline to
prepare, great patience and perseverance for a lifetime.

The Trouble with Passion Dec 30 2022 Probing the ominous side of career advice "follow your passion," this data-driven study explains how the passion principle fails us and perpetuates inequality by class, gender, and race; and it suggests how we can reconfigure our relationships to paid work. "Follow your passion" is a popular mantra for career decision-making in the United States. Passion-seeking seems like a promising path for avoiding the potential drudgery of a life of paid work, but this "passion principle"—seductive as it is—does not universally translate. The Trouble with Passion reveals the significant downside of the passion principle: the concept helps culturally legitimize and reproduce an exploited, overworked white-collar labor force and broadly serves to reinforce class, race, and gender segregation and inequality. Grounding her investigation in the paradoxical tension between capitalism's demand for ideal workers and our cultural expectations for self-expression, sociologist Erin A. Cech draws on interviews that follow students from college into the workforce, surveys of US workers, and experimental data to explain why the passion principle is such an attractive, if deceptive, career decision-making mantra, particularly for the college educated. Passion-seeking presumes middle-class safety nets and springboards and penalizes first-generation and working-class young adults who seek passion without them. The ripple effects of this mantra undermine the promise of college as a tool for social and economic mobility. The passion principle also feeds into a culture of overwork, encouraging white-collar workers to tolerate precarious employment and gladly sacrifice time, money, and leisure for work they are passionate about. And potential employers covet, but won't compensate, passion among job applicants. This book asks, What does it take to center passion in career decisions? Who gets ahead and who gets left behind in passion-seeking? The Trouble with Passion calls for citizens, educators, college administrators, and industry leaders to reconsider how we think about good jobs and, by extension, good lives.

52 Weeks of Passion and Purpose Apr 29 2020 It takes courage to harness the strength

to create a body of work that makes one truly look at themselves in the mirror. "52 Weeks of Passion and Pain", Anita explores the dark places within herself and lays them on the page. Just as she encourages her audience to "stretch. Face the truth. Accept it.", she lends the reader a front row seat to her own journey of discovery just that. Her debut collection - part poetry, part prose - is not for the faint of heart. As the up and coming author strives to present her best and truest self to the world, her body of work is a revealing testament of struggle, suffering and survival. Whether in the form of letters to her younger self or tear-laden lines of verse, Anita's intimate narrative conveys the vital importance of accepting one's truth, and living it as well. "52 Weeks of Passion and Pain" is a stellar and sobering gift by an author whose talent for the written word, and the sincerity with which she shares it, is sorely needed in today's world.

Passion and Purity May 31 2020 In her classic book, Elisabeth Elliot candidly shares her love story with Jim Elliot through letters, diary entries, and memories. She is honest about the temptations, difficulties, victories, and sacrifices of two young people whose commitment to Christ took priority over their love for each other. These revealing personal glimpses, combined with relevant biblical teaching, will remind readers that only by putting their human passion and desire through His fire can God purify their love. Gangster Prayer Jun 24 2022 If you want positive results from prayer, you first need to pray! But so many people who say they believe in the power of prayer actually pray very little . . . or not at all. It's time to get serious about prayer. Autumn M. says that we must stop being prayer wimps and instead be transformed into "prayer gangsters"-people who are dangerously passionate about their faith and loyalty

God. Autumn Miles had reached a point in her life where she was sick of hearing about answered prayers in other people's lives but not seeing any in her own. Having grown up in the church as a pastor's kid, she knew how to pray using certain words in just the right style that impressed those around her, but her prayers did nothing to draw her closer to God and what He wanted to do in and through her life. Prayer was a dead language in her life, yet she was desperate for answers to her prayers. Frustrated with God, she had an epiphany that her prayer life had a foundation of doubt and not faith, which changed the focus and purpose of her prayers. Autumn believes that God wants to give us so much more than what we've been settling for. It's time our prayer life, which has been mediocre at best, becomes something that is more fervent, more intentional, and highly expectant of seeing God answer prayers and work in our lives every single day. **GANGSTER PRAYER** won't teach you how to pray, because that has distracted the church long enough. Instead, it will help reveal the heart behind a believing prayer and put the focus back on who we are praying to instead of on what we are praying for. With a changed perspective and objective, we can finally see the results from prayer we have been longing for—not just answers but a changed life.

Simple Passion Nov 05 2020 WINNER OF THE 2022 NOBEL PRIZE IN LITERATURE A New York Times Notable Book In her spare, stark style, Annie Ernaux documents the desires and indignities of a human heart ensnared in an all-consuming passion. Blurring the line between fact and fiction, an unnamed narrator attempts to plot the emotional and physical course of her 2 year relationship with a married foreigner where every word, event, and person either provides a connection with her beloved or is subject to her cold indifference. With courage and exacting honesty she seeks the truth behind an existence lived entirely for someone else, and, in the pieces of its aftermath, she is able to find it.

The Trouble With Passion Oct 28 2022 Political theorists have long argued that passion has no place in the political realm where reason reigns supreme. But, is this dichotomy between reason and passion sustainable? Does it underestimate the indispensable role of passion in a fully democratic society? Drawing upon Plato, Rousseau, and contemporary feminist theorists, Cheryl Hall argues that passion is an essential component of a just political community and that the need to educate passion together with reason is paramount. *Trouble with Passion* provides a compelling defense of the crucial place of passion in politics.

Thinking the Faith with Passion Feb 26 2020 In his teaching and his writing, Paul L. Holmer (1916-2004), Professor of Philosophy at the University of Minnesota (1946-1960) and Noah Porter Professor of Philosophical Theology at Yale Divinity School (1960-1987), made many important contributions to recent American theology. One of the most insightful American students of Kierkegaard of his generation, Holmer perceived early on Wittgenstein's importance for theology, and employed both thinkers to inspire his own fresh consideration of perennial issues in philosophical theology: understanding, belief, faith, the emotions, and the importance of the virtues. While best known for his essays in 'The Grammar of Faith' (1978), Holmer penned numerous other interesting and original essays, some published but many unpublished, which circulated widely in typescript during his tenure at Yale. Following his death, the Holmer family in 2005 donated his papers to the Yale Divinity School Library; in reviewing Holmer's papers, the editors have chosen a selection of his most seminal essays, beyond those in *The Grammar of Faith*, demonstrating the breadth and range of his contributions. In this, the second volume of *The Paul L. Holmer Papers*, the editors present pieces that illuminate four significant areas of Holmer's contributions: essays on Kierkegaard; essays on Wittgenstein; *Theology, Understanding, and Faith*; and *Emotions, Passions, and Virtues*. Taken together, these essays invite in-depth exploration of the thought of this important American philosophical theologian. This is the second volume of *The Paul L. Holmer Papers*, which includes also volume 1, 'On Kierkegaard and the Truth', and volume 3, 'Communicating the Faith Indirectly: Selected Sermons, Addresses, and Prayers'.

Passion and Presence Feb 20 2022 Awaken your mindful sensuality and reconnect with your partner with *Passion and Presence*. Most romantic relationships follow a predictable pattern of initial enchantment followed by inevitable disenchantment. But relationships don't have to stay in disenchantment or end! *Passion and Presence* offers readers a proven path back to connection and intimacy--often in deeper ways than before. Sex therapist Maci Daye draws on her popular international *Passion and Presence* workshops to show couples how their erotic difficulties can be a doorway to creativity, compassion, and unparalleled growth. Exercises and reflections guide readers down what Daye calls the "naked path" of awakened intimacy. On this path, we courageously examine ourselves, our barriers, and our relationship patterns, ultimately finding fresh ways to heal and connect, and revitalize eros. With gentle clarity, Daye addresses the everyday challenges of "real life" sex, such as desire that has become routine, differences in preferences or desire, power struggles, history of trauma, changes ranging from childbirth to aging, infidelity, communication challenges, and more. Engaging stories depicting couples of diverse ages, backgrounds, genders, and orientations illustrate how the practice of *Passion and Presence* can transform relationships.

and Presence can help any couple establish a more intimate and wakeful erotic life.

Screw Finding Your Passion Aug 14 2021 The commonly held belief that you should 'follow your passion' is flawed. Many people believe that in order to be truly happy, you need to find and follow your one and only true passion. This is a very limiting approach to passion, and one not backed up by much research. In fact, recent research in the field of positive psychology has shown that you can live a more fulfilling life by choosing to pursue your whole life with passion. This has nothing to do with monetising the one thing that you love, but finding love in what you do. Susanna Halonen, also known as the Happyologist, introduces a new approach to passion that enables you to take control of your happiness. By highlighting the latest research in the field, including her own, Susanna explains how you can choose to unlock the passion inside you so that you can live a more fulfilling life. The secret to living life with passion is pursuing the passionate way of being, and the five keys to that secret are individually explored and discussed in the book. Each discussion is followed by questions of self-reflection that encourage you to create your own, unique action plan to start unlocking your passion. This book is an eye opener for those who want to understand the real science behind passion and also a must-read for anyone who is looking for more fire, spark and positive energy in their lives and careers. Most of all, it's a tool to help you to take a more proactive approach to unearthing your best self and setting out on the path towards passionate happiness. Praise for Screw Finding Your Passion: "Wanting happiness and knowing how to pursue it are two different things. Scientifically, happiness is a choice, not something you find. Using new research and practical tools, Halonen helps us change the formula for how we pursue passion, allowing us to find more ways of achieving our potential and creating joy." - Shawn Achor, positive psychology researcher and NYTimes bestselling author of The Happiness Advantage "It's very clear that Susanna Halonen is passionate about her work. And it's very clear that her work can help you unlock the passion within you." - Tal Ben-Shahar, author of international bestseller Happier "We all have times that life seems flat and not very fulfilling. Susanna's unique stance on passion will enable you to find that love for whatever we're doing right now." - Nina Grunfeld, founder of Life Clubs "This idea is so important it can't be ignored." - Elliot Newsome, founder and Managing Director of SKT Consulting

The Passion Paradox Apr 10 2021 The coauthors of the bestselling *Peak Performance* dive into the fascinating science behind passion, showing how it can lead to a rich and meaningful life while also illuminating the ways in which it is a double-edged sword. Here's how to cultivate a passion that will take you to great heights—while minimizing the risk of an equally great fall. Common advice is to find and follow your passion. A life of passion is a good life, or so we are told. But it's not that simple. Rarely is passion something that you just stumble upon, and the same drive that fuels breakthroughs—whether they're athletic, scientific, entrepreneurial or artistic—can be every bit as destructive as it is productive. Yes, passion can be a wonderful gift, but only if you know how to channel it. If you're not careful, passion can become an awful curse, leading to endless seeking, suffering, and burnout. Eyal Stulberg and Steve Magness once again team up, this time to demystify passion, showing readers how they can find and cultivate their passion, sustainably harness its power, and avoid its dangers. They ultimately argue that passion and

balance--that other virtue touted by our culture--are incompatible, and that to follow your passion, you must lose balance. And that's not always a bad thing. They show readers how to develop the right kind of passion, the kind that lets you achieve things without ruining your life. Swift, compact, and powerful, this thought-provoking book combines captivating stories of extraordinarily passionate individuals with the latest science on the biological and psychological factors that give rise to—and every bit as important, sustain—passion.

Acting with Passion Jan 07 2021 Modern breakthroughs in neuroscience and mind-body psychology now offer an alternative approach to the classic systems of acting. So much more is now known about how the brain visualizes, imagines and remembers; neurochemical processes are much faster and more fluid than earlier acting teachers could possibly have realized. Acting with Passion draws heavily on the world of mind-body psychology, primarily the work of Wilhelm Reich and Alexander Lowen. Their theories – that the release of chronic muscular tension can be accompanied by the release of emotions – offer actors the keys to demonstrating emotion on cue. Through a series of physical exercises, actors learn to access feelings through the body rather than the mind. Beginning with the body as 'the instrument' Acting with Passion leads actors through a series of physical exercises combining movement, tactile exploration and vocal release. Once physical blocks are removed, the actor then uses memorized text to place the feelings where they belong. With her characteristic verve and accessibility, and using practical exercises to guide the actor through each stage, Acting With Passion is the result of Niki Flaks's popular acting workshops.

Passion killers: The art of passion killing in the age of stress and pressure Sep 22 2019

There is growing pressure and stress placed on organisations to fight for customer and service/product placement in an increasingly competitive global marketplace. It has, therefore, never been more important to get the best out of the workforce. To achieve this, the role of the leader can be a fundamental factor in organisational success or failure. Leaders need to have the requisite skills to reflect the demands placed upon them in the 21st century. There are the "accidental managers" who drop into the role of leadership and others who may develop skills and knowledge and readiness for a leadership role. There are also those who may have the innate ability to lead. Within the mix are those who are characterised by traits associated with the "dark triad" or who may use "pathocratic influence" on others to conform,

reinforcing values (or lack of values) associated with toxic leadership. They create damage and harm. They become "passion killers". The result can lead to a "pathocracy". This book discusses the role emotional intelligence plays in helping people deal with stressful and challenging experiences, suggesting different ways to cope. The author reflects on the values that are integral to the success or failure of an organisation. "Passion" is identified as an added value that can differentiate one organisation from another. If passion is harmed, it can affect motivation, creativity, output, performance, and productivity. Therefore, this book provides the reader with examples of "passion killing" while making suggestions as to factors that can be adopted to engage and encourage passion. Conclusions are drawn and recommendations made to support those faced with "passion killers". This book is aimed at those of all ages and educational backgrounds interested in developing their leadership knowledge and skills. It is also aimed at those interested in learning more about differences in personality, emotional intelligence, stress, coping, values, and the importance of understanding the impact of "passion killers".
