Carlousia Aug 24 2019 Eddie Caskitt is filled with relief. The worries of moving into a new neighborhood, making friends, and starting a new school have been weighing him down. But after spending just a few minutes with the kids of Drayton Woods, Eddie realizes that the adventurous summer he was hoping for might just happen after all. Eddie hopes all the fun he anticipates will ease the pain of knowing his grandfather is dying. With his last bit of strength before he passes away, Eddie's grandfather whispers that he has left something for Eddie in his barn and that the tall tales he has been telling Eddie for years are true. With the help of a magic bracelet he finds inside a secret hole in the barn, Eddie and his two new friends, Dan and Scotty, enter a portal where they are suddenly thrust into roles guarding the world of Carlousia. Now the boys must conquer fear, outwit predators, unfold betrayal, and overthrow evil all while pretending everything is normal at home. In this extraordinary adventure, three boys take a wild, coming-of-age journey that intertwines risk, honor, loyalty, and the kind of danger that unfortunately may lead to unimaginable loss.

Joseph's Life Story Oct 07 2020 The book 'Joseph's Life Story' is a true and honest account compiled by the parents of the life of Joseph L Cunningham, a baby boy born on the 22nd December 2006, weighing 8 pounds and measuring 20 inches long. It also includes the struggle to learn the truth of what happened during labor and their effort to seek justice. The opening chapters give the parents emotional account of the events during labor, the days after while Joseph was in hospital until he died 38 days later and the account of Joseph's funeral. The book goes on to reveal the effort to seek an explanation as to why Joseph suffered injuries during birth and to have the NHS admit liability. The purpose of this book is to raise awareness on the difficulties that can arise during labour and the need for the correct decisions to be taken at the time. This is to also highlight the effort that was required by the grieving parents in order to learn why such a tragedy occurred, what could have been done to prevent it and to have someone admit fault.

Lost in Translation? Feb 20 2022 Much European Community law, in the form of directives and regulations, needs to be given effect by domestic legislation in UK law, a process referred to as "transposition". This report focuses on the way the Department for Environment, Food and Rural Affairs - which is responsible for implementing some 30 per cent of all Community law - handles this transposition, though the findings will have wider application to other government departments. Implementation in full and on time has to be balanced with the UK Government's policy of avoiding unnecessary over-implementation (known as "gold-plating"). Getting transposition wrong can incur avoidable costs for taxpayers, industry and consumers, and lead to adverse environmental effects. The report examines: accuracy in understanding and interpreting Community law; timeliness of transposition and implementation; and communication with key players. The report points to good practice examples from Defra, praises the Department for establishing a Task Force and Better Regulation Team to examine and improve procedures, and makes a number of additional recommendations. Case studies are used to illustrate the difficulties and problems encountered in the transposition procedure.

Lost Eagles May 14 2021 Few people have ever heard of Frederick Zinn, yet even today airmen's families are touched by this man and the work he performed in both world wars. Zinn created the techniques still in use to determine the final fate of airmen missing in action. The last line of the Air

Force Creed reads, "We will leave no airman behind." Zinn made that promise possible. Blaine Pardoe weaves together the complex story of a man who brought peace and closure to countless families who lost airmen during both world wars. His lasting contribution to warfare was a combination of his methodology for locating the remains of missing pilots (known as the Zinn system) and his innovation of imprinting all aircraft parts with the same serial number so that if a wreck was located, the crewman could be identified. The tradition he established for seeking and recovering airmen is carried on to this day. Blaine Pardoe is an accomplished author who has published dozens of military fiction novels and other books, including the widely acclaimed Cubicle Warfare: Self-Defense Tactics for Today's Hypercompetitive Workplace; Terror of the Autumn Skies: The True Story of Frank Luke, America's Rogue Ace of World War I; and The Cruise of the Sea Eagle: The Amazing True Story of Imperial Germany's Gentleman Pirate.
